*Integration in your
wage and salary
accounting*

*Integration in your
ERP-system/
Post Calculation*

If you can make it work...

Use tisoware.**BASIS?**

Your success is based on tisoware.BASIS, the base module of tisoware. This is your foundation for an expandable and upgradeable software.

Use tisoware.**ZEIT?**

With well-organised flexitime you can reach maximum productivity.

Your costs will be reduced noticeably by optimizing your operating time, recognizing weak areas and reducing extra hours.

Clearly laid out analysis of your personnel working hours provides you with exactly the information you need.

Presented in time models, working hours can be administered to suit your needs

Free Time, extra time and absences are recorded in individual accounts.

Use tisoware.**PEP?**

The input of your workforce can be planned optimally thus increasing the efficiency of your company substantially.

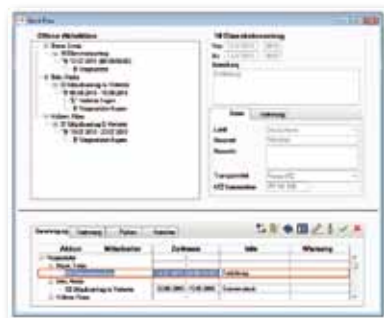

Complex shift work arrangements are presented clearly.

Working time accounts lead to cost reduction in your company – your investment in tisoware.PEP will definitely pay off.

Use tisoware.**BDE?**

The collection of detailed company data gives you important information for your accounting. In addition you can control the progress of your orders.

Use tisoware.**BDEplus?**

Production data graphically presented creates an overview and can be recorded more quickly than simple figures.

Use tisoware.**BDEplan?**

The module for your fine tuning is a tool to control, plan and optimize your production procedures. The visualization of data gives you the necessary overview. You increase your production and lower your costs.

Use tisoware.**PROJEKT?**

Project times can be recorded and evaluated easily.

Use tisoware.**MDE?**

In connection with hardware components we deliver all machine-related data from your production.

Use tisoware.**ZUTRITT?**

Protects your company effectively from unauthorised access.

Use tisoware.**SPESEN?**

You receive electronic accounting of travelling times and expenses.

Use tisoware.**KANT?**

Data of your canteen are managed simply and clearly.

...you can see for yourself:

Do what you want:

tisoware lets you simply produce all necessary data and lists. You can create tables and graphs according to your own wishes and ideas. You are able to record your success.

Put an end to:

Sources of error?
Excess overtime
Detected and recognised by tisoware these can be easily reduced when forwarded to the payroll accounting department.

What you can really forget,

is keeping laborious hand-written recording sheets of work hours, extra time and complicated calculations of any extra costs or pay. Whatever tisoware does for you, you enter on the credit side.

What more do you want?

In your wage and salary management system you can transfer data from tisoware into SAP, Datev or PAISY etc. Thanks to tisoware's flexibility you keep your feet firmly on the ground.

...and **get to know us!**

We will show you:

- We have long-standing experience in the area of time management. Competence and experience have been our capital since 1986.
- With our own branches and partners we guarantee service throughout Europe.
- We specialise in successful teamwork with small, medium and large companies.
- We are securely based with over 2.100 clients.
- We are top in the areas trade, health service, industry, printing, freight forwarding, food, banks and many more.
- With power, flexibility and perseverance we perform excellently in the realisation of work agreements and working time legislation.
- We tailor our service to your needs. We advise with regard to organisation, arrange introductions and courses and service you via hotline and telemaintenance.

We are flexible:

- Our software specialists tailor tisoware to your needs.
- Desires?
Requests?
Expansions?
Tisoware has the answer.
- As far as operating systems and databases are concerned, tisoware is extremely flexible and available on Windows, Linux and Unix.
- We are also open to most databases and specialized on Oracle, IBM Informix, Progress and MS-SQL-Server
- Additional modules can also be incorporated: i.e. for personnel planning (tisoware.PEP) or bonus calculation (tisoware.PRÄMIE) and product data visualisation (tisoware.BDEplus)
- Other branches of your company can be connected via all current ways of communication.

Working hour legislation is implemented into the reality of your company.

Accounts of annual working hours can be kept simply and clearly.

What's your benefit?

- You have everything available at your terminal:
 - flexitime, free time, make-up time, holidays.
 - Absenteeism (i.e. illness, business trips, doctor's visits, flexitime)
 - On-call duties
 - Stand-by duties
 - Issuing of time cards and access control if wanted.
- On-call duties and standby duties as well as the calculation of overtime payments and non-working shifts can be set up in no time at all.

You receive extensive standard analyses and overviews for the management, specialized departments and colleagues.

- Incentive wages in style: The evaluation of your personnel's work is a successful calculation.
- At the touch of a button you have all the relevant data for your wage and salary accounting as well as your post-calculation.
- tisoware can be easily integrated into your current IT- concept.

Where do you think we are?
